

Fullwood Primary School News Report

October - 2023-2024

Fullwood's Wider Ops turns to STEM

At Fullwood, we suspend timetables every wednesday afternoon for 50 minutes to take part in our wider opportunities afternoon. This allows us time to explore new ideas and concepts as well as teaching us life skills. These workshops are enjoyed by all at Fullwood and we are always looking for new sessions to teach our children.

During the second part of the Autumn term, our wider opportunities took a STEM focus. Stem being S (science), T (technology), E (Engineering), M (maths). Our STEM leaders at school worked to plan workshops which focused on all areas of STEM. These included cardboard robotics, coding, designing floating gardens, Space buggies, roller coaster designs, LED bracelet designs and many more.

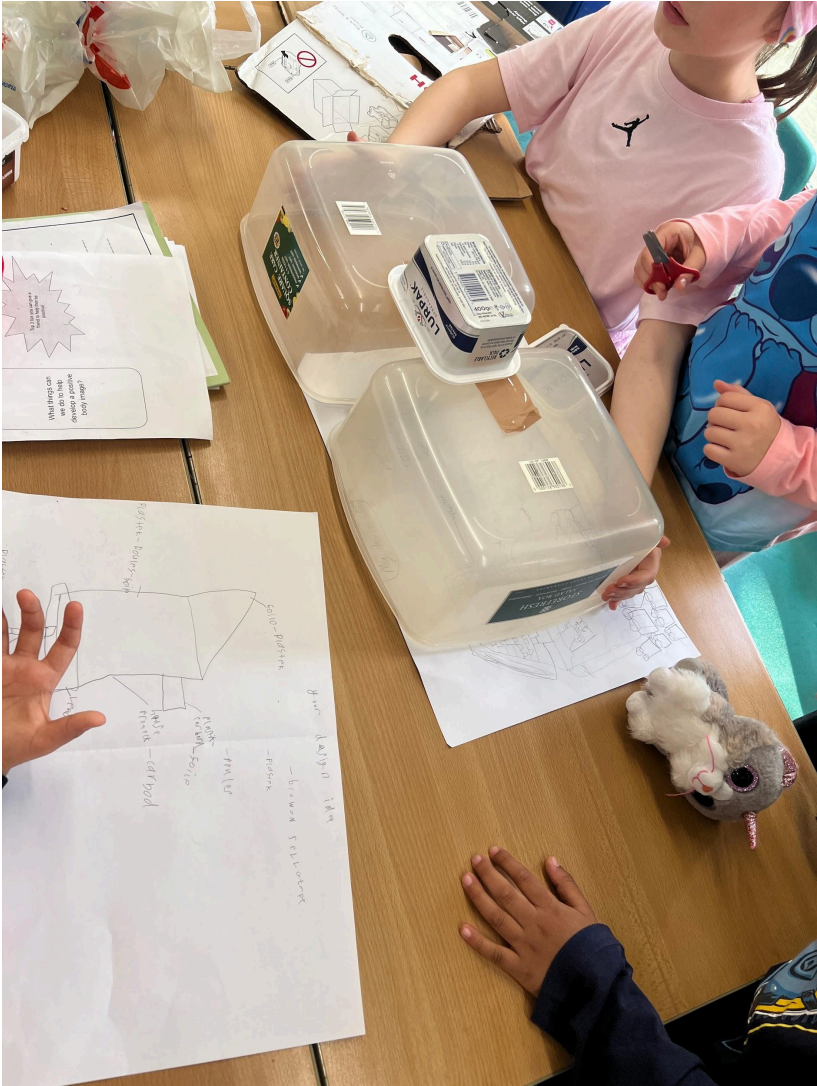

Take a look at some of the pictures from our sessions

Culinary science - learning about the science of food

Trash Fashion - Designing an outfit from recycled things

Floating gardens - learning about making a garden which can withstand floods
