## **School Council 2024-2025**

This year's school council was announced in assemblies today. Following a process of hustings, campaigning and declaring a pledge in front of their classes. Children were elected by their classes through a democratic process of voting. This is part of our British values, where promoting democracy teaches children about a fair voting system and allowing their voices to be heard through their chosen representatives.

At Fullwood, we take pride in our pupil voice and are very well done to the children that ran and were elected this year. We hope this becomes an opportunity for boosting confidence, making change and hosting fantastic events in the upcoming year. Here are this year's team:
