Year 5 Takes a Tasty Step into India!

This term, Year 5 embarked on an exciting learning journey, *Step into India!* As part of our Design and Technology curriculum, the children explored the art of making Naan with their own creative twist.

We began by delving into the history of food safety and storage, setting the foundation for our culinary adventure. Each child designed four unique Naan ideas before selecting their final creation. To build anticipation for the event, they also crafted vibrant posters to promote their delicious Naan recipes.

From garlic and cheese to sweet sultanas, the variety of toppings showcased the children's imagination and flair. After a fun-filled morning of kneading, shaping, and baking, the freshly made Naan was sold in the afternoon—and what a success it was! Together, we raised an impressive £55.80.

A big thank you to everyone who supported our Naan sale and celebrated this delicious achievement with us!
